Links as background for the Greenways discussion

1. Watch the Portland Greenways video which gives a great introduction to what greenways are:

2. Seattle City Councilmember Sally Bagshaw's Greenways FAQ:

3. Wendy the "Willing but Wary" cyclist:

The Wendy document summarizes and links to the research done by the Mineta Institute research on Level of Traffic Stress. What Portland has found is that if you design a traffic network for Wendy (LTS-1), everybody will use it.
